

Bedtime Story For the Little Ones

UNCLE WIGGILY AND THE PIECE OF STRING.

BY HOWARD K. GARD.

SAMMIE and Susie Littlefoot, the two rabbit children, were out in front of their burrow, or underground house, wondering what they could do to have some fun, when, all of a sudden, along came Uncle Wiggily Longears.

"Oh, Uncle Wiggily!" cried Susie. "Please tell us how to have a good time."

"Suppose you come with me, looking for adventures!" exclaimed the rabbit gentleman, as he twinkled his pink nose like the end of a firecracker.

"Oh, now I'm sure we'll have fun!" cried Sammie.

So off they trotted through the woods until Uncle Wiggily, Sammie and Susie, soon they were far away from the rabbit gentleman's hollow stump bungalow.

"Susie, do you feel hungry?" asked Sammie after a while.

"Why, yes, I do," answered the little bunny girl, wondering why her brother was blinking his pink eyes at her in that funny way. "But I don't see anything to eat," went on Susie.

"Oh, but so there's a piece of string!" exclaimed Sammie. "What good is that?"

"You never can tell when you want a piece of string," said the bunny uncle. "I always have a nice long piece that comes on sundries. There! You untie it at last!"

He put the string in his pocket, opened the bundle and then Sammie and Susie burst about everything else except the good things Uncle Wiggily had brought for them.

"I will not eat anything that was in the bundle, for fear of making

14 Years Ago Today

From The Herald of this date, 1903.

A LARMING rumor is current of further wholesale massacres of Bulgarians in the vilayet of Monastir. One report said that 40 persons have been slaughtered in the district of Laret alone. Other reports affirm that the Turks have burned the Christian quarters of the towns of Florine, Okilinda, and Resen.

James Piper and wife are at the Angeles from Noyanne, Mich. Capt. J. H. Hadlock and wife will leave on the Rock Island for the coast in a motor launch. Hadlock is one of the United States government inspectors and is taking a 30 days' leave of absence.

Mr. and Mrs. M. Sturgis of this city, will leave tomorrow over the Southern Pacific on a pleasure trip to California. Mrs. Sturgis, who has been ill in her home for some time, will travel in California for the benefit of her health.

Post commissioner Baldwin, of the United States post office at San Marcos, Texas, came in this morning with some rock bass to be placed in the El Paso market. This basin in the water holes, to be carried later to Mal. Powell's ranch.

Governor Luis Terrazas has approved the plan for the market building in Juarez, and it will be built in the near future at an estimated cost of \$100,000.

The Herald Stamp Mill company has just placed on exhibition and will have running in this a new patent stamp mill for treating ore. Other mills have been made to crush the ore with the weight of the stamp, but the idea of this is to have power from a spring which raises the stamp to crush the ore. It is said to be lighter, cheaper and more economical to run than other mills.

ST. CLEMENT'S MEN HEAR OF MANUFACTURE OF STEEL. Otis McIntyre, of the El Paso foundry, talked to the Men's club of St. Clement's church Monday night in the parish house on the iron and steel industry of the country. He explained with blackboard diagrams, how steel is made, how castings are made and the difference in blast furnaces, converters and "cupolas" in the iron industry. He said the iron and steel of the country and also told the difference in high carbon steel and low carbon steel. High carbon steel, he said, is used for tools, cutlery and things of that class while the low carbon steel goes into railroad rails, bridges and building steel and things of this kind.

Steel, he said, is now driving wrought iron out of the market, because it can be made in much less time and very little iron is any longer used. The advance in the price of steel has been very rapid, and in the past year, scrap castings now

NOTE LEVERAGE

ROOFLESS

MOUTH CLEAR LEVERAGE NILL

The Advantages of Roofless plate

1. As the part next to the gum is of very soft rubber, it gives in chewing, as the natural teeth, thereby enabling you to eat food impossible with the old style plate. You simply grind your food with the old style plate. You cannot chew it.
2. As the roof of the mouth is clear, there is nothing to rest on the hard bone in the mouth. It can be put in immediately after extraction and the plate settles with the gums as there is no hard ridge in the roof of the mouth to hold it back. And for the same reason as you can readily see, it cannot possibly "rock." When these plates are put in immediately after extraction and "settle" with the gums, of course there is no plate in the world can come anywhere near the fit of these.
3. Naturally they can be made to fit any mouth—and mouths that cannot wear old style plates—on the roof deep, shallow, flat, is not to be taken into consideration at all.
4. They have a 100 per cent better suction—soft rubber as against hard, thin as paper—against the one-fourth inch thickness of the old roof plate.
5. Comfort, taste, freedom from voice interference, and many other advantages that will suggest themselves to you if you will look at the diagram. Teeth extracted in the morning, plates delivered the same day.

bringing \$25 a ton and pig steel \$25 a ton.

Five or six percent is lost, he told his auditors, in casting. Castings were made during the meeting and watermelons were served after the address. The meeting was closed by singing "My Country, 'Tis of Thee," at the suggestion of Rev. Fuller Swift, the pastor.

EVENING FIRE DESTROYS UNUSUALLY S. ARMY SHACKS

Fire at 7:30 Monday evening destroyed several mess sheds and other shacks on the roadway leading north west the Country club, used last year by the Michigan artillery and some of the Ohio troops. Nobody was in camp and the original cause of the blaze is not known. The only loss was in the lumber in the shacks destroyed. A large pole nearby caught fire, but the firemen from the bungalow station, under assistant chief John Sullivan, arrived in time to put out the pole.

GOOD BLOOD

"Blood will tell." Blotches and blemishes, like murder, will out, unless the blood is kept pure. Its purity is restored and protected by the faithful use of

Beauty Chats - By Edna Kent Forbes

Headaches.

I DO not know whether there is any medical proof that continued headaches turn the hair prematurely gray. I think there is, though I am not familiar enough with medicine to know. I do know that many headaches imply extreme nervousness, and this condition causes the hair to turn gray before its time.

So a word as to how to treat a headache—which has spoiled many a woman's good time. Try to find out first, what the cause of the trouble is. If it is the digestion—over eating causes headache—drink a cup of hot water in which a half a teaspoonful of plain baking soda has been dissolved. By quieting the stomach, this will often relieve the head.

If it is caused by crying, bathe the eyes with hot and cold water, rub the lids with cream, and lie down with them closed. If it is due to exhaustion, take a warm bath, to which some bath ammonia, or bath salts have been added, if you have them, rub the skin with alcohol, and take a nap.

In any other case, put an ice pack on the head. If you have a rubber ice bag, that's the best way, if not, wrap some chopped ice in a towel, and roll the towel around the head, wherever the ache is most poignant. The cold seems to drive the blood from the head, at least it breaks up the congestion, that causes the pain.

Lacking ice, vinegar may be used effectively to bathe the head, this also drives the blood from the skin, and refreshes the nerves that ache.

Questions and Answers.
Q.—Wash your hair every three weeks, giving it an extra shampoo. In the last rinse water, add a few drops of lemon juice or ammonia, and dry in the sun whenever possible.
A.—To get rid of blackheads, hold hot wet cloths to your face for a few moments, then wash with tincture of green soap and hot water, rinse with hot. Now, you can use a cold cream here or not, as you choose, but in any case, you rinse again with cold water and rub a piece of ice over the skin. The ice shocks the pores and closes them and this shock of cold after the heat is what makes the time grainy complexion you want, and what reduces the large pores.

Tidy—Keep on the deep breathing exercises, the boxes don't more prominently, because the air in the pushes them up. No, breathing won't enlarge them. Breathe, first filling the lower part of the lungs—down near the abdomen, then the middle

NEWS NOTES FROM MOVIELAND

By DAISY DEAN.

JULIETTE DAY, the newest of the American Film company stars, really likes to grab around in the garden. She has a theory that working in the earth tends to strengthen the nerves fully as much as the out of door exercise. It may be that she knows mighty well that she looks well in overall, though. She has been specializing in foods that can be preserved or canned for winter use, for Miss Day is intensely interested in the food conservation work and is making more than her share to advance active interest in it at the studios. She has done three pictures for the American company, all early fall releases. Juliette believes in the new harmonic name theory and chose the names for her pictures herself. They are "Betty of the Bookends," "The Rainbow Girl," and "The Calendar Girl."

MOVIES INVADE YOSEMITE PARK

A band of movie muggers recently invaded the Yosemite National park and emerged with underdeveloped films of themselves posed before some of the most picturesque spots in the scenic wonderland. The Yosemite falls formed the background of one picture. The most famous scene was still used as the background for other scenes. This is the first time since movies were invented that permission has been given a motion picture company to erect a set within the confines of a federal reserve or for the taking of scenes in which actors appeared. The photograph for which the scenes were photographed was "The Woman and the Forest," for which Geraldine Farrar has been acting most of the summer, and the exception was made because of the historical nature of the film.

Tom Moore has been engaged to play the title role in the movie adaptation of "The Cinderella Man." This is the part created by Shelley Hull when the romantic comedy was acted at a New York theater two seasons ago. George Fawcett, one of the stage's most famous troupeurs, will be seen in Philip Merivale's original part. Mae Marsh, who has been stated previously, will be the heroine.

Clara Morden, the Chicago girl whom Bryant Washburn selected for the prettiest among about 19,000 at the recent exhibitors' convention for the opportunity to appear in his next picture, is now being prepared for her studio debut.

There storm at sea in which lives will be lost. During the next few months many vessels will be met sailing among men and women, who will develop unbalanced tendencies and an increase of insanity is prophesied.

Saturn is in an aspect that is supposed to increase danger from dark or underground places. Mining or subways accidents may be expected. Again the assassination of a man prominent in public affairs is foretold for another year.

Neptune is believed to encourage fraud and treachery when the stars are posted as they are today. Late in the evening fairly good luck should attend plans in which financiers and importers are interested.

Jupiter smiles on banquets or dinners at which subjects of momentous importance are discussed. The time of the entry of the Sun into Libra this month the three satellites, Mars, Saturn and Jupiter, combined in the seventh house, and setting of Berlin, are believed to indicate disaster for the Kaiser.

Death of a royalty will take place before October 1. It is predicted, and this will be followed by mortality in other quarters where rulers exercise power.

Persons whose birthdate it is have the anxiety of a checkered year in which they will meet gains and losses. Children born on this day will be probably very quick and clever but they are likely to meet with difficulties in life. (Copyright, 1917, by the McClure Newspaper Syndicate.)

Russia has entrained all her women. The National City Bank of New York city employs nearly 400 women.

HAS SHEERER HEARD ALL HER LEE, SHE SAID

Regains lost weight taking Tanlac and her trouble has been relieved.

"More or less all my life," said Mrs. Dolores N. Baca, of 805 South Park street, recently, "I have suffered from some disorder of the stomach. Then, about two years ago the rheumatism got hold of me and for the next nine or ten months, especially my condition has been getting worse rapidly. I lost my appetite, what little I ate invariably made me sick at the stomach and I would have to lie down for sometime after every meal."

"My entire body seemed to be affected with the rheumatism and my joints would puff up and hurt so I could hardly bear anything to touch them. My kidneys were also out of order and I suffered terribly with pains in my back, and my head ached dreadfully. I was very nervous, couldn't sleep well and would get up in the morning just as tired as when I lay down at night."

"This is just the condition I was in when I read about Tanlac and began taking it. I am now on my fifth bottle and I must say I have never had any medicine do me so much good. I am entirely free from the rheumatism, the pains have disappeared from my legs, arms, and the kidneys never bother me now at all. I just don't seem to be able to eat enough to satisfy me now and nothing hurts me in the least."

"My nerves are calm again, my sleep is sound and restful and my tired dragger feeling is gone. I had lost some in weight, but I now weigh as much as I ever did and several of my friends are taking Tanlac on account of the good it has done me. I was beginning to get very much discouraged over not being able to get anything to help me but my independent feelings left me soon after I began taking Tanlac and found my health being restored. The results from my first bottle surprised me and I kept taking it until now I really feel like a different person."

Tanlac is sold in El Paso by Kelly & Pollard Company, Inc., and People's Drug Store under the personal direction of a special Tanlac representative—Adv.

Cosmetics only hide skin trouble

Resinol makes sick skins well

Whether it is a serious affection like eczema, or just a pimply, rough and unattractive complexion, you can usually rely on Resinol Ointment and Resinol Soap to set it right, promptly, easily and at little cost. Resinol Ointment sticks itching instantly.

The daily use of Resinol Soap for the toilet is sufficient to keep most complexions clear, fresh and glowing.

Resinol Ointment and Resinol Soap contain nothing that could injure or irritate the delicate skin of a baby. They clear away pimples, eruptions, redness, stop dry skin, and form a most valuable household remedy for eczema, chaps, cuts, burns, etc. Sold by all druggists.

TODAY'S DAINTIEST DISH

By CONSTANCE CLARKE.

Rice and Meat Hash.

CUT into small pieces some left-over cooked meat, a medium sized onion, and mince some parsley leaves; put them in a stewpan and boil for ten minutes. While these ingredients are cooking, wash one cup of rice in several changes of cold water, then slowly add the rice (stirring well adding salt), season with salt, pepper and butter. Cook till rice is tender. Dish upon hot platter and garnish with green parsley. (Tomorrow—Stuffed Carrots.)

HOROSCOPE

Wednesday, September 12, 1917.

ASTROLOGERS read this as an uncertain day in which every one should be careful. The Sun, Neptune, Uranus and Saturn are all in malefic aspect. Late in the afternoon Jupiter is friendly.

During the busy hours, routine should be followed as there is a slender way for whatever is new or likely to involve future interests.

Neptune gives warning of a se-
